REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach and/or suggest a laser vibrometer for identifying remote targets comprising, in combination with the other recited elements, either a phase-locked loop which includes a summing amplifier which sums signals generated by a plurality of low pass filters and outputs a signal to an integrator or an autocovariance processor having multiple inputs in which the signal derived from the multiple inputs is representative of the remote target, substantially unaffected by laser speckle, both of which are utilized to provide an indication of the mechanical vibrations of the remote target.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hepner et al. (US 4,545,025) discloses an auto covariance computer with an input from a single laser velocimeter.

Fried (US 4,792,231) discloses laser speckle imaging utilizing the second covariance function of phase to provide phase differences between nearby spatial frequencies from laser speckle distributions reflected by a target scanned by a laser beam with a spatially periodic component.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rose M. Miller whose telephone number is 571-272-2199. The examiner can normally be reached on Monday - Friday, 7:30 am to 3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron Williams can be reached on 571-272-2208. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
